Sir:

Pursuant to 37 CFR §1.56, §1.97, §1.98, and MPEP §609, applicant encloses of the references listed on the attached form PTO/SB/08A for consideration by the Examiner. The references are discussed in paragraphs [006] and [009] of the specification.

While applicant is not providing an English language translation of the first listed reference (a Japanese book having a title which translates as "Thin Film Technology"), a discussion of the relevant subject matter of this reference in comparison to the present invention is presented at paragraphs [006]-[029] of the present specification . Such discussion is not meant to be exhaustive of the differences between the invention and the reference, but merely illustrative.

The listed references are being cited only in the interests of candor and without any admission that they constitute statutory prior art or contain matter which anticipates the present invention or which would render the same obvious, either singly or in combination, to a person of ordinary skill in the art.

Favorable consideration is respectfully requested.

Respectfully submitted,
